Hiring Manager
Aarambha IT Research Center Pvt. Ltd.
Pokhara, Nepal

Dear Hiring Manager,

I am writing to express my interest in the Frontend Developer Internship at Aarambha IT Research Center. As a BSc (Hons) Computing student at Informatics College Pokhara, I have built a solid foundation in React.js, Tailwind CSS, and JavaScript, and I am eager to apply these skills in a professional environment.

Through my academic projects-such as developing a responsive e-commerce bookstore application and a React-based landing page. I have gained hands-on experience in designing clean, user-friendly interfaces. These projects strengthened my technical understanding of frontend frameworks and honed my problem-solving and collaboration skills.

Additionally, my summer internship (June–September 2025) at Ing Skill Academy and Informatics College enhanced my teamwork, communication, and adaptability. These experiences taught me how to work effectively in dynamic settings and align my work with team objectives.

I am particularly interested in Aarambha IT's focus on modern web technologies and innovation. I am excited about the opportunity to learn Next.js and contribute to creating impactful digital experiences under your guidance.

Thank you for considering my application. I would welcome the opportunity to discuss how I can contribute to your team and continue growing as a frontend developer.

Sincerely,

Sharon Gurung

Dear Hiring Manager,

I'm excited to apply for the Frontend Developer Internship at Aarambha IT Research Center.

Below are some of my frontend projects that demonstrate my React and Tailwind CSS skills:

Grand Canyon Landing Page – Responsive website built with React & Tailwind

<https://github.com/Norahs-00/grant-canyon-landing-page.git>

To-Do App (React Hooks) – Dynamic task manager

<https://github.com/Norahs-00/react-todo-app.git>

GitHub: <https://github.com/Norahs-00>

LinkedIn: <https://linkedin.com/in/sharon-grg-157524282>

Thank you for reviewing my application.

Best regards,

Sharon Gurung
